NEW YORK — Nearly three of four people surveyed in a poll released Sunday do not believe the American people have been told the truth about President John Kennedy's assassination.

Oliver Stone's new movie *JFK*, which espouses the theory that Kennedy's death was the result of a right-wing conspiracy including agencies of the U.S. government, has renewed interest in the 1963 assassination in Dallas. The Warren Commission concluded that Lee Harvey Oswald acted alone.

A *Time* magazine/Cable News Network poll showed that 72 percent of those surveyed said they believed they were not being told the truth about the assassination. Nearly the same number, 73 percent, believe there was a conspiracy to kill the president.
